

Our family listens to K-Love on FM translator service, in our area it is 95.3, 91.1 and 90.9. We understand that our ability to receive the K-love signal may be in jeopardy. We only listen to this radio station and enjoy the family friendly programming and feel it is a real benefit to our community. K-Love offers a much better choice than any other radio station in our area, it offers wholesome values, news reporting you can trust, and it has a positive influence for those who listen. I know I would feel deprived and upset if I were no longer able to have this choice for my family. It is in the public interest to continue to offer this choice to the community, it is a way better alternative to the other selections of radio stations.
